EXAMINER'S AMENDMENT

I. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE CLAIMS:

A) Please amend claims 33 and 45 as follows:

33. (CURRENTLY AMENDED): A method of viewing image data from a plurality of cameras comprising:

at said cameras, capturing data sets representing images;

at said cameras, periodically transmitting said data sets to a plurality of camera coordinators, a plurality of said camera coordinators each receiving data sets from multiple cameras;

at said camera coordinators, determining whether one or more of said data sets is of interest;

transmitting data sets of interest from said camera coordinators over a network to an image server, said image server not local to one or more of said cameras; and

providing said data sets from said image server for viewing by a user.

and further wherein:

said coordinators include an incident and history database from which their connected cameras can playback stored incidents;

said coordinators can connect multiple incidents, triggered at multiple cameras, into an incident sequence;

said coordinators have positional and view information about each camera and information about overlapping regions of cameras;

Art Unit: 2621

said coordinators perform time-stamping for data sets and/or incidents;

~~said coordinator~~ providing a management interface allowing a user to perform various management functions, ~~such as~~ including setting time parameters for whether incidents from particular cameras will be of interest, establishing other rules definitions; specifying alerts regarding cameras that have not reported; installing new software and other maintenance functions;-

said coordinators performing advanced image processing tasks ~~such as~~ including image recognition or tracking a person or object identified in an image or determining that an object is coming toward or moving away from one or more of its connected cameras.

45. (CURRENTLY AMENDED): A surveillance system comprising:

a plurality of cameras able to capture data sets representing images;

said cameras periodically transmitting said data sets to a plurality of camera coordinators, a plurality of said camera coordinators each receiving data sets from multiple cameras;

said camera coordinators including logic modules able to determine whether one or more of said data sets is of interest based on analysis of said data sets representing images;

an image server not local to one or more of said cameras able to receive data sets of interest from said camera coordinators over a network and able to provide said data sets for viewing by a user;

data storage operationally connected to said image server for holding multiple data sets of interest for viewing by a user;-

further wherein:

said system includes an incident and history database from which to playback stored incidents;

said coordinators can connect multiple incidents, triggered at multiple cameras, into an incident sequence;

said coordinators have positional and view information about each camera and information about overlapping regions of cameras;

Art Unit: 2621

said coordinators perform time-stamping for data sets and/or incidents;

said coordinators performing advanced image processing tasks including image recognition or tracking a person or object identified in an image or determining that an object is coming toward or moving away from one or more of its connected cameras; and

a management interface allowing a user to perform various management functions, including setting time parameters for whether incidents from particular cameras will be of interest, establishing other rules definitions; specifying alerts regarding cameras that have not reported; installing new software and other maintenance functions.

REMARKS:

II. Claims 33 and 45 have been amended as discussed above, as authorized by Applicant's attorney, Stephen J. LeBlanc (Reg. No. 36,579) on 5/26/06.

Reasons for Allowance

1. As per Applicant's instructions as filed on 3/15/06, claims 1-32 and 44 have been canceled, claim 33 has been amended, and claims 45-53 have been newly added.

2. Claims 33-43 are allowed

3. Claims 45-53 are allowed after entering the Examiner's Amendment as discussed in the EXAMINER'S AMENDMENT section.

4. Claims 33-43 and 45-53 as amended are allowed as having incorporated novel features (emphasis added on amended independent claim limitations as a whole) as discussed in the last Office action as filed on 6/10/05

The prior art of record fails to anticipate or make obvious the novel features as discussed.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
